The Ringing Report Sent Forth by The Judiciary Committee.

Washington, June II.—At a meeting of the House Judiciary Committee to-day, the Hon. J. Proctor Knott, the Chairman, submitted his report on the message of R. B. Hayes' vetoing the bill to prevent interference at elections. After the reading of the document some discussion arose, in which the Republican members of the Committee gave assurance that they would not object to the presentation of the report to the House, to have it printed and recommitted, the design of this procedure being to afford the minority an opportunity to prepare a statement embracing their views upon the veto in question. With the understanding that this course should be pursued, Chairman Knott was authorized, without dissent, to report the document to the House at the first opportunity, which he did to-day. After referring to the bills as presented to Mr. Hayes and his reasons for vetoing them, the report goes on to say:

Impressed with the importance of removing the last shadow of a present for any interference whatever with State elections by the armed forces of the United States, and desiring to obviate, if possible, the President's objections to the measure already proposed for that purpose, the House of Representatives promptly passed a separate bill, which was as promptly concurred in by the Senate, simply providing that it should not be lawful to bring to or employ at any place where a general or special election is being held in any state any part of the army or navy, unless such force should be necessary to repet the armed enemies of the United Country of the senate of the United States "to employ and inconsistent with the purposes of the bill. Having been thus presented as an independent proposition, disconnected from any appropriation bill, and containing no reference to any supposed power in the civil authorities of the United States "to employ an adequate vetoing the Army of the purpose of the p The Ringing Report Sent Forth by The Judiciary Committee.

The entire argument sgalars the nocessit of the bill is, therefore, left to rest upon the President's reiterated assertion that troop have not been and will not be used to intereve with any State election during his administration. In regard to the third objection to the bill the report says, Mr. Hayer's objection is "it discrimination in favor of the State at against the national authority. Under this bill," says he, "the presence of employmen of the army or navy of the United State would be lawful and might be necessary to maintain the conduct of a State election against domestic violence that would overthrow it." If this had been uttered in mere harangue from the bustings is would probably be suspected as a specious appear to popular or party prejudice; but from the highest Executive Magistrate known of constitution, it is of course divested of an such suspicion, and should receive that respectful consideration to which its distinguished course entitles it is the precisely what the Fresident manner is the precisely what the Fresident should be the precisely what the Fresident should be the precisely which he seems to determine the precisely which he seems to draw between such election and any other elections which may be held in a State. place, when properly called upon, can be said to derogate from the anthority of the United States.

There is a single consideration, however, sufficient in itself to show that the fears expressed by the President that the bill would subordinate national to State authority were totally unfounded, but which seems singularly enough to have escaped his observation. Under the law as it now stands, and has stood since 1726, the President is not bound to call forth the militia or to employ the land or naval forces of the United States to suppress every riot or popular tunnit in a State, although called upon by the Legislature or Executive for that purpose. It will be observed that it is only lawful for him to do so in cases of insurrection against a State Government, and, as was clearly demonstrated by the Supreme Court in Martin agt. Mott (12 Wheaton, 13), he is to judge for himself whether the contingency in which it would be lawful or necessary for him to exercise that power has actually arisen or not. If, therefore, the President-should have reason to believe that the force was not called for in good faith to suppress an insurrection against the Government of the State, but to be used for any purpose in any manner inimical to the United States, it would not only be his right, but his duty to withhold it.

Your Committee, having no bill before it upon this subject, and deeming it unnecessary now to report otherwise than as stated, ask to be discharged from further consideration of the subject.

Sunday Item. An editor has one advantage over a King. When an editor goes out riding in his open barouche drawn by four milk-white steeds he is never shot at by a Socialist. You have probably remarked this yourself .- Norristown Her-

An Iowa husband furnished his wife \$50 to buy a silk dress, but instead of so doing she put the money in the bank, let it remain there 18 years, added to it whenever she could, and the other day paid off a mortgage on the farm. Is comment necessary? - Detroit Free Press.

When a woman buys a kettle of paint o paint, say the kitchen door, she loesn't let what's left after covering the door dry up. No; she paints every thing paintable in the house with it till the last drop is exhausted, until all ignorant old doctor in Adair County, things about the premises—tubs, boxes, Ga., for a prescription, and was given and barrels, flower-pots, wheelbarrow and hoe-handle-have put on the kitchen door tint, be it green, yellow or brown, black, purple or crimson. She does this to save the paint; only this and nothing more.—Boston Transcript.

Here is an American anecdote, given

in the Paris Figaro as a receipt for find-ing a stolen umbrella, which we don't remember seeing in any American pa-per: A New York merchant had his umbrella stolen in a church. He so-cordingly inserted in a newspaper the following advertisement: "If the person who took Mr. X.'s umbrella does not return it without delay to his house, MAD. VALENTINE VREDENBURG of a whole edifice of piety and respects New Orleans has just been awarded bility will crumble and fall like a house \$15,000 as damages sustained by her in the loss of a husband, who was torn in known." Next day the Yankes when he came down stairs found in his front hall not only his own umbrella but a score of others, whose proprietors had recognized themselves in the advertisement. The Figaro warmly recommends to its friends this method of finding a

lost umbrella. Nor long ago, in a country town, a barrister was examining a lady witness, who would talk, and who would not let had Delaware justice administered to any one of the lawyer's quibbles get the better of her. The forensic advocate The whipping took place at Newcastle, and was viewed by a large crowd. The Sheriff laid on the blows, but lightly, and the prisoners seemed to think it or, these old women will talk. They are very troublesome and will waste the time of the Court."
